

FINNPROT SPRING SEMINAR 2016

# PROTEOMICS IN FINLAND

## PRESENT AND FUTURE TECHNOLOGIES

30.5.2016 AT HAARTMAN INSTITUTE, UNIVERSITY OF HELSINKI

The Finnish Proteomics Society (FinnProt) promotes research and education in proteomics field in Finland and acts as the official Finnish collaborative body to the international proteomics organizations.

This seminar day will introduce present proteomics techniques and applications available and provided by the national proteomics facilities. Research talks will give more thorough overview to novel proteomics techniques like SWATH, SRM, and others.

In addition, all participants will have the possibility to introduce their research topic and main interests in proteomics to connect and exchange ideas.

After the seminars FinnProt will have General Assembly where a new board will be elected for the next two-year period 2016-2018. Everybody interested in being active in our society is highly encouraged to participate!
