

# Proteomics Course in Helsinki, Finland

**April 20-24, 2015**

## Advanced Course in Modern Protein Chemistry and Clinical Proteomics 2015

The Biomedicum Helsinki Clinical Proteomics Unit is arranging a 5 days hands-on Course in Modern Protein Chemistry and Proteomics

Advanced Course in Clinical and basic Proteomics 2015 is a hands-on 8 hour/day course which is conducted in the Clinical Proteomics Unit premises in Biomedicum Helsinki, Finland on April 20th - 24th, 2015. During this course students will untangle the mysteries of carefully selected proteins and protein complexes with the help of modern protein chemical technologies (1- and 2D gel electrophoresis, micro- and nano-LC, LC-MS, MSMS, MALDI-TOF, HR Q-TOF-IMS, AA-sequencing etc.). Number of students selected to the course will be limited. Registration dead-line on April 13, 2015.

Registration through: <https://elomake.helsinki.fi/lomakkeet/59165/lomake.html>
